

## MK's Trim

Trim has been part of our family since she was 2 years old. She has been our favorite horse to ride, as her gaits are wonderful. She has taken many riders down the trail, and is careful with all of them. She seems to know who needs a quiet ride & who is capable of putting up with a little 'horsing around'. For juniors or senior citizens, she seems to know how to behave. Trim is the first choice to ride when we just need to relax - she does the work, all you need to do is stay on !
