

SA ZEETA  
4-22-1976  
Raffons Radiance X SA Ferzeeta

This is being written 20 years after Zeeta received her 1000-mile award. I purchased Zeeta as a pregnant 4-year-old mare. For more than a year, I swore I would never keep her. She was not very trusting and we were always on the edge.

But one day, everything seemed to click. That beautiful face of hers and her quiet, kind eye would win me over for her lifetime.

She was my endurance horse for a few years and then my niece competed on her for two more years.

She was one of the main lessons horses from the start of Valley Creek Farm in 1993. She taught more kids than I can count how to ride and grow to love horses. She even taught some of the kids how to do competitive riding.

Zeeta had four foals in her lifetime, one of which, Vallies Kadin, went on to become an Endurance Champion.

She taught all of my kids how to ride and, over the years, had truly become a member of our family. I also know how lucky I was to have her as a business partner. Not only was she a joy to ride as an endurance horse, but also one of the best lesson horses I could have hoped for.
