

Third Shift

Third Shift is probably best known by his 'other' name. But he is probably the main reason that we continued in this sport. The first ride we ever did, knowing absolutely nothing, he managed to place, & we figured it might just be the sport for us. As a big muscled horse, he has always been picked as 'least likely to succeed', but has proved many people wrong. He has consistently placed throughout the years, and while being a challenge to ride, he and Jim have developed a special bond.
