Attention College Bound and College Enrolled Students

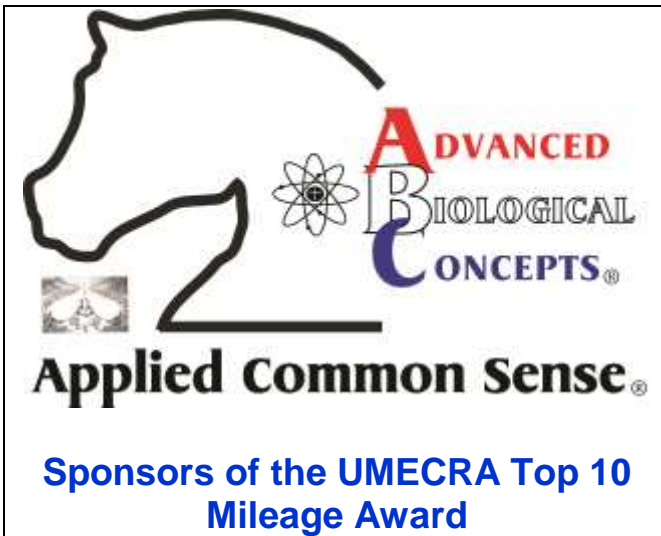

Applications are now being accepted through Friday, November 15, 2013 for scholarships for post high school educational opportunities. Applicants must have at least two years' membership in the Upper Midwest Endurance and Competitive Trail Association. The applicants must have participated in at least 25 rides sponsored by UMECRA and intend to study for at least a two year program.

Former Wisconsin members Ray and Audrey Gehrig established this scholarship in 1996. Additional tax deductible contributions are welcome for anyone at any time. Many UMECRA members have made charitable contributions to support this scholarship fund in the past. We encourage members to continue to add memorial gifts and honorariums to the fund to support this worthy scholarship for youth and others returning to school. You can donate directly on-line at the website cfsw.org

For scholarship materials and/or information about making a contribution to the UMECRA Fund, please go to the website:

2014-2015 Rider Reps Candidates Sought

Are you interested in being a Rider Rep in UMECRA? Rider representatives are the rider's voice on the UMECRA Board of Directors. You must be a UMECRA rider member (but not a ride manager) and be able to attend at least 2 out of the three board meetings we have a year. This is a two year term which begins after the January 2014 General Meeting. Board meetings are typically in March, November and January. Nominations are due to the UMECRA secretary by the UMECRA November Board meeting.

Contact Jill Feller at:

jfeller@nconnect.net or by regular mail at: Jill Feller,
N9280 Cty Road TW, Mayville, WI 53050.

The Race is ON!Ride Results!

(Note: Light blue highlights indicate non-UMECRA rider status at the time of the ride.)

Alternative Hay Sources

Hay cubes are an excellent fiber source for horses, and are generally easily accessible at most feed stores, and can be fed just like hay, at a 1:1 ratio. Hay cubes are heavier in weight, so you'll need to weigh them to ensure the horse is getting the proper amount of forage.

Complete feeds are formulated to provide a large proportion of a horse's nutrient needs, including fiber. Complete feeds usually contain more than 16% crude fiber and are designed to be fed in larger amounts compared to a lower fiber grain mix with little to no hay alongside. Follow label directions to ensure horses consume adequate amounts of nutrients, fiber, and other feed components.

Byproduct fiber sources include **beet pulp, bran, and grain hulls**. Beet pulp is a popular fiber source for horses because of its digestibility and palatability. Studies have shown that a horse's diet can contain up to 55% beet pulp without negative effect. It's important to remember, that beet pulp's digestibility is higher than most grass hays, so ensure the horse's diet is balanced properly when making the switch.

Brans, such as rice bran and wheat bran, are another option but are less desirable due to their high phosphorus concentrations. If feeding bran, ensure the horse is consuming adequate calcium to keep the calcium:phosphorus ration to at least 1:1. Because these fiber byproducts are only fermentable fiber sources, they should be fed alongside hay or another complete fiber source. Thus, these sources should be used to stretch hay rather than replace it.
